New! Teams Webinar

Now Available are three (3) types of Teams Meetings, well if you include "Meet now" there are four (4):

The newest and long-awaited meeting type is the Teams Webinar. Webinars provide the tools to schedule your Webinar, identify presenters, provide customized registration capability for the session, run an interactive presentation, and analyze attendee data afterward. View the video on our **Learning Pathways home page "TeamsWebinar Recording"** to learn more about setting up your Webinar.

MyHub Governance

MyHub provides governance for Office 365 collaborative workspaces, i.e., Teams workspaces and SharePoint Online sites.

MyHub implements an automated process to enforce policies such as
- Minimum of 2 Workspace Owners
- Two Contacts
- Team Name Enforcement
- Team Privacy Restriction
- External Sharing

Additionally, 180/365-day Lifecycle policies ensure the Teams workspace or SharePoint site is properly maintained.

There are three (3) waves for the rollout of MyHub Governance. Visit the **Office365 website FAQ** to see when you may gain access to MyHub. And visit the **Office365 Learning Pathways** site to learn more about the features of MyHub Governance.

Microsoft Apps and Services
Now Available

Walkie Talkie App for iOS and Android Phones: The Walkie Talkie app in Teams provides instant push-to-talk (PTT) communication on Android and iOS phones. **Read More Here.**
Teams Approval App: The Approval app in Microsoft Teams provides a simple way to create and document a request and its outcome. **Read More Here.**
MS Office365 Visio for the Web: A "lightweight" Visio web app is now available for your use via the web. **Read More Here.**
